# Text of Petition to the President and Congress.

Has Been a Factor for Harmony Favorable to Americanism. Strong Commendation.

The quiet efforts of Princess Kainland to obliterate the harsh feelings growing out of the change of government in Hawaii, and her acceptance of the new order of things is appreciated by this community, and by none more so than those who were directly instrumental in bringing that change about. This appreciation has found voice to a petition to President Mc-Kinley and Congress, reciting certain facts concerning the overthrow of the Monarchy and Kaiulani herself, and commending her to their consideration. Such a petition could have received thousands of signatures in Hawaii, but it was decided by those who took the subject in hand to limit them to those who took an active official part in the overthrow of the Monarchy or in

position there was to be round. It will be noted that the signatures attached to the petition do not include those of President Dole or the Cabinet. #### THE PETITION.

United States of America:

The undersigned, members of the Citizens Committee of Safety of Januery, 1893, of the Executive and Advisory Councils of the Provisional Govemment of Hawaii, and of the Council of State, cenate and House of Representatives of the Republic of Hawaii respectfully present for your consider-

ly acceped and supported the Republic, and used her best efforts to assume the enmitties caused by the late political changes in Hawaii;

That although Americans and those of American descent have been largely instrumental in oringing about the changes which have deprived the said Kaiulani of her brilliant prospects she bears no apparent animus against them or their country, and has been conspicuous in earnest efforts. both socially and otherwise, to forward American interests and to remove the prejudices existing between the Royalists and the supporters of Annexation. As an example of her conduct in this respect we would cite the fact that upon the outbreak of the late Spanish war, she volunteered her services and was prominent in the entertainment of the American soldiers passing through Honolulu to Manila, and became and still continues the Vice President of the local Red Cross Association for the care of sick American goldiers in Honlulu, the President. of such Association being the wife of the American Minister:

That the said Kairlani is possessed of but a limited amount of property and income:

That we do not think or suggest at the said Kajulani has any legal claim against the United States Government: but we do offer for your consideration whether or not, in view of the premises and of the circumstances attending the change of Government in Hawaii, the Government of the United States would not be warranted in making a settlement upon the eald Kaiulani; and in this connection we beg to call to your attention that such settlement was provided for in the Annexation Treaty negotiated by President Harrison.

If such action is taken we believe that it will further and materially tend to remove the remaining feeling growing out of Annexation; will be good political policy; will be a graceful act toward a lady of character who possesses the esteem of all who know her, and will be gratifying to the citizens of Hawai, of all parties and nationalities.

We beg to add that this memorial is not prepared at the instance of the said Kalulani or ner family and that they have no knowledge thereof.

Another intensely exciting incident occurred during the engagement. The treaty of Paris was ratified by the Senate on Monday, the 6th, but it had a narrow escape from defeat. The vote was 57 ayes to 27 noes, or with the pairs of 61 eyes to 29 moes, being one vote more than the necessary twothirds. If the Filipino leaders counted on deterring the Senate from ratification by their attack on Manila they Funds are Wanted for the made a grievous mistake, for instead of cowing any of the doubtful Senators or inspiring sympathy for the cause of independence it had just the contrary effect. #### \*\*\*\*\*\*\*\*\* PACIFIC CABLE.

WASHINGTON, Feb. 8.-It is asserted that the opposition to the Pacific cable bill has been mollified, and another attempt will be made to bring it up in the House of Representatives for passage. The administration is now said to be behind the measure, and will use its power to have the bill pass before the adjournment of Congress. To this end changes are to be made in the bill. For instance, there is to be a clause which will give the Postmaster General discretion in awarding contracts, which may bring into the field other bidders for the franchise than President Scrymser of the Pacific Cable Company of New York, with the result that the cable may be laid without the expenditure of a dollar for bounty by the United States Government. While in San Francisco Mr. Scrymser declared that Wake Island could not be used as a cable station as it was uninhabitable. He strongly favored Ualan island for the pur-

expansion voted in favor of the treaty by which the United States assumes sovereignty of the Philippines because as they said of the hostile action of the natives towards the United States. These were Senators McEnery, Mc-Laurin and Jones of Nevada. Previous to the vote on the treaty itself the Vest resolution was defeated by a vote of 30 to 33, and in open session Senator Gorman of Maryland delivered a remarkable speech. He had taken to himself an assertion of Senator Wolcott of Colorado that certain political leaders in the Senate believed that a new issue should be brought before the Isabella Renwick, Annie Paeseu, teach-American people to be determined at the next presidential election. Senator Gorman resented the introduction of personalities in the debates of the Senate, and then referring to the news or one figuring at Manna demanded to know who believed if we had made such a declaration regarding the Philippines as we made concerning Cuba, that the deplorance light at Manila would have occurred. He expressed the opinion that if the treaty was ratified it would be the beginning of a war which would cost us thousands of lives and millions upon millions of treasure.

"It will not be four years," declared Gorman, "before our people will resent this action. It is known now that the people will resent it, and the aumoritles are providing against that resentment by increasing the standing army to 100,000 men, not alone for service: in our far-away possessions, but for of the Oahu Railway Company Quite service right here at home to police a force of men are at work and, it is our own country."

Kohala Seminary.

Education of Hawaiian Girls - An Old Institution - Increase of Endorsment.

To the Friend of Education, Greeting: We, the undersigned Board of Managers and Teachers of the Kohala Girls' School, beg leave to present the following statement to your careful consideration.

This school, which is conducted under the auspices of the Board of the Hawallan Evangelical Association, is the oldest and most important boarding school for Hawalian girls on the Island of Hawaii. It was established by Rev. Elias Bond in 1875, and has sent out many well-trained young women. It gives its pupils—varying in number ation. from 40 to 60—the neual course of study found in the public schools, with the added advantage of Christian culture, and training in cooking, sewing, laundry and general housework. Its object has ever been to give Hawalian girls such an education as would best befit them, not only to earn a living, but also to be of service to their race.

The school has this far been largely dependent for its support on the benevolence of a few. Its small endowment should be increased to at least \$50,000. This would place it on a firmer basis, increase its appliances, and so enlarge its usefulness.

We therefore the Teachers and Board of Managers, make an earnest appeal to all who are interested in the advancement of the Hawaiian race, for ald in raising this fund.

Will you contribute to it? Funds may be sent to the following addresses: Frank H. Wiggin, Esq. No. 14 Beacon street, Boston, Mass. Rev. W. Frear, Y. M. C. A. Building, San Francisco, Cal.; Rev. A. N. BILL PASSACE

Alarm About 10,000 Japanese The Figures are Given, In Phillippines.

Senator Malloy of Florida in his speech in the Senate made on January 25th, upon the subject of colonies and annexed territories, objected to the acquisition of the Philippines on the ground that it would add a large Asiatic population to the United States, He anuded to the fact that Congress was disturbed by the immigration of Japanese into Hawaii, and that the Committee on Labor laws was opposed to it. He made the following citation from the report of the committee:

"The passage of the bill becomes advisable, in the judgment of your committee, because contract laborers are being taken into the Hawaiian Islands with such rapidity that it is inexpedient to await the passage by Congress of a bill providing a general system of government for Hawali. It is officially estimated that 3,000 laborers have been taken into these islands under contract since the raising of the United States flag over them.

"The news of the passage of the resolution of annexation appears to have reached Honolulu on July 13, 1898, and on the following day, July 14, applications for 2.8 5 Japanese male laborers were approved by the board of immigration after a meeting with the representatives of the Planters' Associ-

"On November 3, 1898, applications for 5,935 Japanese male laborers were approved by the Hawalian Government. 3,467 of whom were to be brough, in during one first quarter of 1899."

"If the extension of our anti-contract labor laws as provided for in this bill is not speedily made, approximately 10,000 contract laborers will get into the annexed islands between the date of annexation and the extension of our laws over them."

Sepator Malloy continued: The wisdom and the necessities of the people of the United States urged Congress to pass a law prohibiting the immigration of people from the Chinese Empire into the United States. There were only a few thousand-one hundred and odd thousand, if I am not mistaken—that had gotten in; end here now we are seized with a spasm of apprehension lest 10,000 additional Japanese contract laborers get into Honolulu for the purpose of working on the sugar plantations in those isl-

Bulls are Playful on the Chicago Grain Board.

CHICAGO, Jan. 26,-Wheat played high jinks on the Board of Trade today. The little grains of food provender had additional value pumped into them so fast that they set the whole Board wild. Four and a half cents a It seems that Epperly has not included bushel were added to the price of the refrigerated horse meat in his reperday before and sales running up into millions of bushels was proof positive that the buying furor had jumped out of New York stock markets and landed in the Chicago wheat pit.

Seventy-nine and a half cents bushel was the top notch for May. The closing figure was 77% cents, but even that was 2% cents better than the close the preceding day. It was 14 cents higher than the price a month ago and it is not considered the limit by any means. Dollar wheat is predicted by the bulls.

Wall street was held responsible for the greater part of the rise in price. Men who made money in stocks in New York speculations were said to have furnished most of the buying energy for the wheat market here. Convinced that they had squeezed most of the profits out of stocks that they could safely get for the present, but equally convinced hat higher prices were to obtain generally, the big Eastern speculators began to look for another field for their operations. Grain was the thing that suited them best. All conditions for it were bullish; the range of prices has been comparatively low. Wall street took its accumulated stock winnings and placed them on another

game, and it is winning again. The minute that it became clear that vew York men were buying heavily, every one else began to buy, too. That was where the bull enthusiasm came in. Brokers on the Board of Trade held their cards full of orders. There was a rush of clerks and shouting of excited buyers and sellers, and prices they fell a little, but again they would cents Wednesday, the buying of May wheat began today at 75% cents. Carl Epperly Wants to Place "Horse Beef."

Represents an Oregon Hours---Urges Use of Commodity-To Sell in the Orlent.

On one of the trans-Pacific liners to the Orient last month, passing through Honolulu, was a specimen of the Nor'west rustler who was thoroughly fin de siecle-which means up-to-date. This was Carl Epperly, formerly secretary of Joseph Holliday, the wealthy brother of the late Ben Holliday, who, by the way, was grandfather of young Ben

Holliday, son of Mrs. W. G. Irwin. Epperly was selling "horse beef." This article, first came into general use in civilized countries during the Paris commune in '71, when, as Zola des-cribes it in his La Debacle, it was displayed in slabs or hunks as ill-colored meat in the shops of the French cap-

But since then its use has become more general and the process of curing it has greatly improved. Horses are grown now in the wilds of western Oregon and Washington, not for their speed or abilities as draught animals, but for their use as food.

At The Dalles, near Portland, is a large canning establishment for the preserving of horse flesh, and it is doing a big business. Epperly is the outside man for this enterprise. He goes to Yokohama, Hongkong and Manila and other parts of the far east to introduce the commodity.

Stopping for the day in Honolulu he spied the nearest point of interest to the Mail dock, where the steamer was moored-the public market. And here he remarked.

"I can put'a better article of meat than you see here for half the price. Up in Oregon we are canning a beautiful quality of horse meat and also pickeling it in a borax solution so that it keeps for any length of time in any climate.

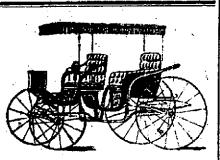

"I can ship 400 pound tierces to Honolulu and put corned horse meat in the stalls of your market for about five cents a pound, and I intend to do it."

No horse meat has reached here yet toire, but it is doubtless on the list. Whether it comes in a frozen state, in gally labeled tins or solemn big barrels, just what the pake dealer at the market will say to its reception will be interesting. And the consumers to be numbered among the Hawalians and Portuguese chiefly, as the voluble horse flesh drummer expatiated, will have a cheap, modern dish which is claimed to be both healthy and appetizing.

PROF. BRYCE.

The article on "Hawniian Problems," written especially for the S. F. Chroniprinted elsewhere in this paper.

Whatever Mr. Bryce publishes is worth reading; it could hardly be otherwise with the thoughts of an Englishman, who in his book on the "American Commonwealth," has surpassed so many of our own political writers In describing, analysing and commenting upon our complex system of goverament.

While Prof. Bryce has stated the facts he discusses with some inaccur- the souls of the members of the Anacy, he has presented the truth substantially. In the limited The natives have done comparatively space at his command, he deals only little for its support, although they have with the general factors in the Hawaiian problem.

These problems are by no means new to those living here, who have made a study of political institutions. | maintenance. Prof. Bryce's suggestion that the British would have made these Islands a trolling factor in the destinies of the Crown colony at once, is answered by himself, that the Federal government has no colonial office through which that the stronger owes to the weaker such a colony could be governed. He race should be cordially and abundantis opposed to universal suffrage in Ha- ly discharged. This can be done in no waii. "All Englishmen," he says, "who know India and the Crown colonies will say to Americans, Beware of extending the suffrage in Hawaii.'" And he continues, "Utterly opposed as it may he to all democratic doctrine that 5000 Americans and Europeans, with perhans a smar, fusion of other races, should legislate for 100,000 Asiatics. Hawaiians, and Portuguese, this is a less evil than that the 100,000 should be granted power to injure themselves, and the Americans and the government as a whole."

The brief discussions in Congress upon the Hawaiian bill, indicate that the views of Prof. Bryce are shared by some Congressmen. The Republican party tends towards a division intoa "left" and "right" wing on the subject of the elective franchise. The inconsistent with the Federal constiare governed by the bitter lessons of motiversal suffrage, granted to the negro, have secured in the committees. a limitation on suffrage here in the proposed organic law. They share be speedtly passed, and further legis-Prof. Bryce's views, which were also the views of the annexation party here when it created the present Hawaiian constitution.

The "right" wing of the Republican party in Congress will oppose any preperty qualification. What the re-Serive strength of these wings of the party is, has not been developed. This right wing of the party should not get much if any support from Republicans in these Islands, because nearly all of these Republicans were annexationists and heartily supported the adoption of the present constitution, with its high property quantications.

The views of Prof. Bryce have great value, for no one has a better reputation for intelligently holding the scales, and justly weighing in the balances, the merits of different political institutions.

#### THE TENURE OF OFFICE.

The joint resolution of annexation does not specifically provide the means for carrying on the legislative department of the government here. Provision is made for the exercise of power by the civil, judicial and military officers. And municipal legislation is declared to have full force, until Congress otherwise provides, but there is no direct provision made for the exercise of the legislative power. Municipal legislation is made valid, if not "left" wing containing the men who tution and the annexation act, but the legislative functions are continued only inferentially. A reading of the Resoration indicates that those who drew lation would be enacted under it, instead of under the Hawaiian law. As the annexation act provides that

the government in said Islands shall be invested in such person or persons as the President or the United States shall direct," it may be inferred that the provisions of the Hawaiian constitution and laws are suspended so far as they require an election of officers by either the Legislature or the people, unless the President directs that such election shall be held. At the same time, if he gave such direction, and a person was elected to any high office. whom he did not approve of, it would be embarrassing to remove him, after having left it to the constituency to

elect him. While the legislative power is continued, though by inference, it appears derstanding in these latter years that it has now no jurisdiction over any executive officer. And if it has none, then those in office will remain so until the organic law is passed, or the President exercises his power of choice or removal.

This is an anomalous and undesirable situation, but no harm may come of it, even if the organic act is not

This is the idea expressed by Rev. Sidney Gulick regarding the Oriental religions. With deference to the Almighty, he recognizes His hand in all things, including the Oriental religions. This is the idea of the founders of the Gordon Memorial. It seems to be inaldentally commended even in the Missionary Herald.

While in Hong-Kong, Lord Charles Beresford gave his opinion about the Chinaman as a soldier.

He said "he did not know any nation

which had more of the characteristics required in soldiers. They were sober, obedient, easily managed, and quick to learn. If they were well led, if their contract was kept as to their wages being paid on the first of the mon.u., and they were properly fed and clothed, he believed they would make spiendid soldiers. In English troubles with China, who were the people who fought so well and were mentioned so frequently in the despatches? Why, the coolies, men picked up in the streets of Hongkong, who were shot down in hundreds while putting scaling ladders against the enemy's ramparts." His Lordship repeated that if treated fairly and led properly the Chinese made just as good soldiers as any other nation.

Halaws May Have Homes-Will be O Investigation—Home For . Consumptives.

(From Thursday's Daily.) The Executive Council and the O Board of Health held a joint meeting Q yesterday afternoon to deliberate in regard to the selection of a cemetery ste o and the establishment of a home for O consumptives. The following were O information was given by a wopresent: President Dole, Attorney O man. Trial at Lahaina resulted
General Smith, Minister King, David O second degree. It had been the Dayton, A. S. Cleghorn, F. A. Schaefer, O. Dr. Emerson, Dr. Day, Dr. Wood, Dr. O. Girvin, Dr. Herbert, Dr. Howard, H. M. O. von Holt, Geo. W. Smith, Mark Robin-O son, Henry Waterhouse and others. O

President Dole remarked that the O had confessed repentance for his matter of suitable cemetery sites was O crime. The case of the murder one in which all should be interested. O much attention at the time. It as it is one of vital importance. He O had been preceded by a number then referred the gathering to Attor O ney General Smith, who had made a thorough study into the subject. O Mr. Smith explained that there were

eighteen cemeteries scattered through O out Honolulu, which number was far O too great. He had looked over all the O ground carefully with a view to selecting a site suitable, and found that O there was one of two objections to most of places. Either water was found a slight distance below the surface or else coral rock was struck. There were, however, two sites, either one of which of the prove constants of the coral constants. might prove serviceable.

Plans were then shown of the Kahaniki tract, situated out near Moana lua, and of some ground out in Palama

district. It was found that this latter property could not be obtained inside of ten years, for the purposes wanted, without a law suit. A provision had at one time been made for the using of this land for cemetery purposes, but had organized with the enormous capital of

been lost sight of in a subsequent lease. The main objection to the Halawa property was that according to the present outlook it would not be very long before that locality would become able that a cemetery should be in a residence section. A discussion was taken up by the assemblage as to where the cemetery should be situated. Dr. Day advocated Pearl City or a site that far distant, as a cemetery should not be located near town. Transportation by the railroad could be reduced to a minimum if Pearl City were selected.

Mr. von Holt suggested Kalihi, but as this is in close proximity to the pedient. In answer to a question as to wheth-

er the Oahu Cemetery Association would go ahead with the work after the site was selected. Mr. Dayton said he could not speak for the Board, but thought it undoubtedly would do so. After considerable discussion the following committee was appointed to confer together and look into the mat-

ter thoroughly: Board of Health: G. W. Smith, Dr. Day; Cemetery Association: A. S. Cleghorn, H. M. von Holt; Executive Council: President Dole and Attorney General Smith. The matter of a consumptive home was next taken up. President Dole reminded those present that last year the Queen's Hospital had memorialized

the Legislature that it provide a home for consumptives, or at least a ward in the annex to the hospital. Objection was raised at the time by owners of property near the hospital.

Statistics were read showing that in the last year there had been an alarming increase in the number of deaths from tuberculosis.

Dr. Wood explained that the need of some segregation of consumptive cases was a pressing one. They could not be admitted to the Queen's Hospital for several reasons.

Discussion followed in which it was brought out most forcibly that a refuge is absolutely necessary. People do not realize that consumption is really contagious and grossest carelessreally contagious and grossest carelessness is the result.

Everyone present thoroughly accorded with the idea that a separate home situated in some dry, elevated spot should be established at once. A committee of three, with the privilege of being increased to five, was appointed, who should inquire into the cost and location of such a home. The members are: Dr. Wood, Dr. Herbert, G. W. Smith. President Dole was made chairman of the committee.

IDEAS

Tells What Great Britain Would Do Concerning the Races. About Suffrage.

(Jas. Bryce, M. P., in the San Francisco Chroniele.)

The problems presented by the annexation of the Hawalian islands are less difficult on their political side than those which arise in connection with the control of Cuba; and less difficult, @ also, both politically and economically, O than those involved in the government 🖭 of the Philippines. The scale, moreover, of the phenomena to be dealt o with is smaller in the first-mentioned @ case than in the two latter. But the 19 facts of the Hawalian case are intricate and peculiar, so that a few words upon 6 it from one who has visited Hawaii . and seen something of various British 💿 colonies may have an interest for the 🖲 American reader.

waiian group of isles is only about o 137,000, at is composed of five distinct 🖭 and dissimilar elements, standing on 🖭 very different levels of civilization. The American-European element, consisting of white men chiefly of Ameri can origin, with a good many English 🧿 and minor sprinklings from other European countries, is the smallest, but 🧑 the most important by intelligence, energy and wealth. It is, in round num- @ bers, about 14,000, and it has practically had the management of the islands in its hands for many years, since | it guided and furnished Ministers for @ the latest native sovereigns. Largest 19 in number, but still very backward, though it is nominally Christlan and speak English, is the native Hawaiian element, estimated at 75,000 and apparently diminishing. Then follow whites. three masses of recent immigrants-15,000, and Portuguese, about 9000. The guese as well as native Hawaiians. Japanese and Chinese, are quite unfit for free government. The Portuguese, three races are, of couse, in a still lower stage. All these four race-groups have, moreover, no natural organization within thei groups. Three of them have come lately to the islands while a form of territorial government in the among the natives the ancient system of rule by chiefs has completely van- this letter for commenting on them. ished. Britain would not have much vote is willing to sell it. White purdoubt as to how she would deal with it. She would make it what we call a crown colony, that is to say, she would administer it by a governor sent from England, clothed with arge discretionary powers, but assisted by several executive officers and advised by a local legislative council. To show some respect for the educated and democratic doctrine that 5000 Ameriproperty-holding element (the 5000 Americans and Europeans), a certain small infusion of other races, should legislate for 100,000 Asiatics, Hawaiinumber of places on this council ans and Portuguese, this is a less evil would be reserved for members to be than that the 100,000 should be grantelected by that element, but probably ed power to injure themselves, and the there would either be secured on the council a Government majority of official and nominated members, or else the home Government would reserve to itself the power, to be used in the last resort, of legislating over the heads of the local council. Perhaps there would also be created a suffrage so arranged as to admit a certain Government of Hawaii should be just number o. one most intelligent and richest of want may be called the backward elements (Portuguese, Hawaliana, Japanese and Chinese), so suffrage? Several methods suggest that they should not feel wholly excluded. And, of course, neither race, nor color, nor religion would be any citizenship, as distinguished from pobar to the appointment of election of littical rights, would be secured to the any person either to the council or to members of all races alike, with free

erament steadlestly adhered. Thus ward races and protect dient. Thirdly, the government of the isles would be it might be considered whether a sort a hiresucracy controlled from home, be established, on which places yet feeling through the council the incould be found for one or two of the fluence of local white opinion We increased, we should by degrees liberatize the constitution. There is, indeed, one colony, Natal, in which full granted to a white population of about 50,000, ruling over a black population more than ten times as numerous. But in it the Kaffirs are homogeneous and peaceable, living mostly under their chiefs, and not likely to

#### THEY ARE OPPOSED.

One Pacific Coast Force that is in harmony with the Honolulu Chamber of Commerce and the Hawaiian Planters' Association and that is working tooth and toe nail against the extension of the navigation laws of United States to these Islands is the organization of the pilots of the Golden Gate. There are twenty of these men and each one has an income, all in fees, of \$6,000 to \$9,000 a year. They will be very heavy losers by the change. Under the new order the American ships plying between Honolulu and San Francisco will require only a coasting license and with this Though the population of the Hathey may enter or depart without a pilot. As at is now, use of a pilot is compulsory. All of the captains are as well qualifield for the work-from constant familiarity—as the pilots themselves and only the tugs will be used. And often the skippers will be able to dispense with the tow. It will all make a very handsome bonus for the vessels of American registry in the sugar and general merchandise trade. The pilots at Honolulu are under salary. They may and again may not feel the difference. The coast pilots are credited with being a heavy political influence. They have @ always been able to defeat any bill presented at Sacramento looking to a reduction of fees.

All these four elements, Portu- the American-European element in Hawali has already been in control of the Government. It must also be remembered that this element is, on the whole, personally respectable and worthough a good sport of people, have thy (however illegal the recent prohad practically no experience in it, ceedings of the self-created government and have no taste for it. The other may have been) that it has no ill will to the natives, and that it knows the country, in which many of the leading

families have been long settled.

It is announced that bills have been

brought into Congress for establishing

islands. I have not seen these bills, and in any case could not find space in usual lines of the frames of government set up in territories on the Amerfrage a sufficient number of the backward races to enable them to turn the elections. It is no kindness to thrust upon men functions they are unfit to perform. A Legislature controlled by M these four races, two of them Asiatic strangers, and the Hawalian natives nowise politically superior, would be a body either useless or mischievous. Probably, however, even if these races ture would practically come under white control. But how? Most likely by bribery. The man who doesn't chasers would be found, and the system thus created would demoralize the advanced part of the population with-out benefiting the backward part, while throwing the Legislature into unscrupulous hands. All Englishmen who know India and the crown colonies will say to Americans, "Beware of extending the suffrage in Hawali." Utterly opposed as it may be to all cans and Europeans, with perhaps a Americans, and the Government as a whole. The principles of the Declaration of Independence are a species of baggage which the American people cannot carry with them into their tropical dominions. In this matter nature has been too strong for us English, and she will be too strong for you. But the conscience of the American people also desires that the Territorial to all races, and extend full protection

to the weaker. How is this to be se-

cured, especially if the vast majority

of the weaker are excluded from the

themselves by which the difficulty may

be reduced, if not quite overcome. In

the first place, full private rights of

leading and most intelligent men beshould think this sont of system the longing to each of the four backward fairest to the backward races, and the races. Fourthly, the system of local most likely to advance the prosperity government, whatever it is, which now of the colony. When the masses beif necessary, so revised as to secure for came fitter for self-government, or these four races some share in the when the white element had largely management of it, and also some training which might draw them together, and give them the rudiments of politi-cal training. A fifth point touches the control of the home government. That colonial self-government has been government, if I am rightly informed, deals with the territories through Congress and its committees on territories. These are fluctuating bodies, and act by way of legislation. Might there not be some advantage in putting the Executive Department of the Federal Government into direct contact with the Governor of the Ter-nitory of Hawaii, so that the former could give advice to the Governor and the latter could obtain support, if he needed it, for any action he might feel bound to take in the interest of the unrepresented masses? Lastly it is of supreme importance that the Governor of the Territory should be a man of the highest character and capacity, who will feel his responsibility for the protection of those back-ward masses, and will have both the tact and the courage to defend their interests. A man may be good enough to be Governor of Arizona or Oklahoma and yet far below the standard needed for the administration of Hawaii whose duty it may become, not only to exercise boldly his veto against the local legislature, but even to proclaim his views of policy, formed on the spot against those of a committee on territories or the Executive at Washington Such a man, raised above the suspicion of having personal or political aims to serve, may do much to smooth the path, beset with difficulties as it must needs be, along which the new Territory would have to travel.
